Objective

Computer Science Engineering graduate seeking an entry-level Software Testing/QA role with knowledge of Manual Testing, Selenium Automation Testing, API Testing, Python, and SQL. Familiar with SDLC, STLC, test case design, functional testing, regression testing, bug reporting, REST APIs, and JSON validation. Eager to apply testing and automation skills to ensure software quality and continuously develop technical expertise.

Education

Bachelor of Technology - Computer Science Engineering 2022–2026

CMR Institute of Technology, Hyderabad

Percentage: 80%

Intermediate - MPC (Mathematics, Physics, Chemistry) 2020–2022

KGBV Waddepally, Gadwal, Telangana

Percentage: 87.9%

Secondary School Certificate (SSC) 2020

ZPHS Undavelly, Gadwal, Telangana

Percentage: 95%

Technical Skills

Manual Testing: SDLC, STLC, Test Case Design, Test Scenario Writing, Bug Reporting, Functional Testing, Regression Testing, Smoke Testing, Retesting.

Automation Testing: Selenium with Python, WebDriver, Locators, XPath, CSS Selectors, WebDriverWait, Expected Conditions, Browser Automation.

API Testing: REST API Testing, HTTP Methods, GET, POST, PUT, DELETE, Status Codes, Request/Response Validation, JSON.

Programming: Python – Programming Concepts, Data Handling, Basic Application Development.

Database: SQL – Queries, Joins, Data Retrieval, Database Concepts.

Data Analysis: NumPy, Pandas, Data Cleaning, Data Manipulation, Dataset Analysis.

Projects

Water Quality Prediction Using Machine Learning

- Developed a machine learning model to predict whether water is safe or unsafe based on water quality parameters.
- Performed data preprocessing, handled missing values, and trained ML models using Python for prediction and evaluation.

Employee Payroll System

- Developed a payroll management system to manage employee, department, salary, and attendance records.
- Implemented SQL queries and Python integration to calculate salaries and generate payroll reports.

Certifications

Python Certification: Completed Python certification with knowledge of programming concepts, data handling, and application development.

SQL Certification: Completed SQL certification covering database concepts, queries, joins, and data manipulation.

SPC (Student Police Cadet): Completed Student Police Cadet program that developed discipline, leadership skills, teamwork, and social responsibility.
